

YOU WHO

Global On Demand
Services Platform

what is **YOUWHO**?

- > Global on demand services platform
- > Search for and book peer to peer services
- > List peer to peer services with 0% commission
- > Pay and get paid any time, anywhere
- > Stake **\$YOU** tokens and claim fee pool rewards

mission statement

0%

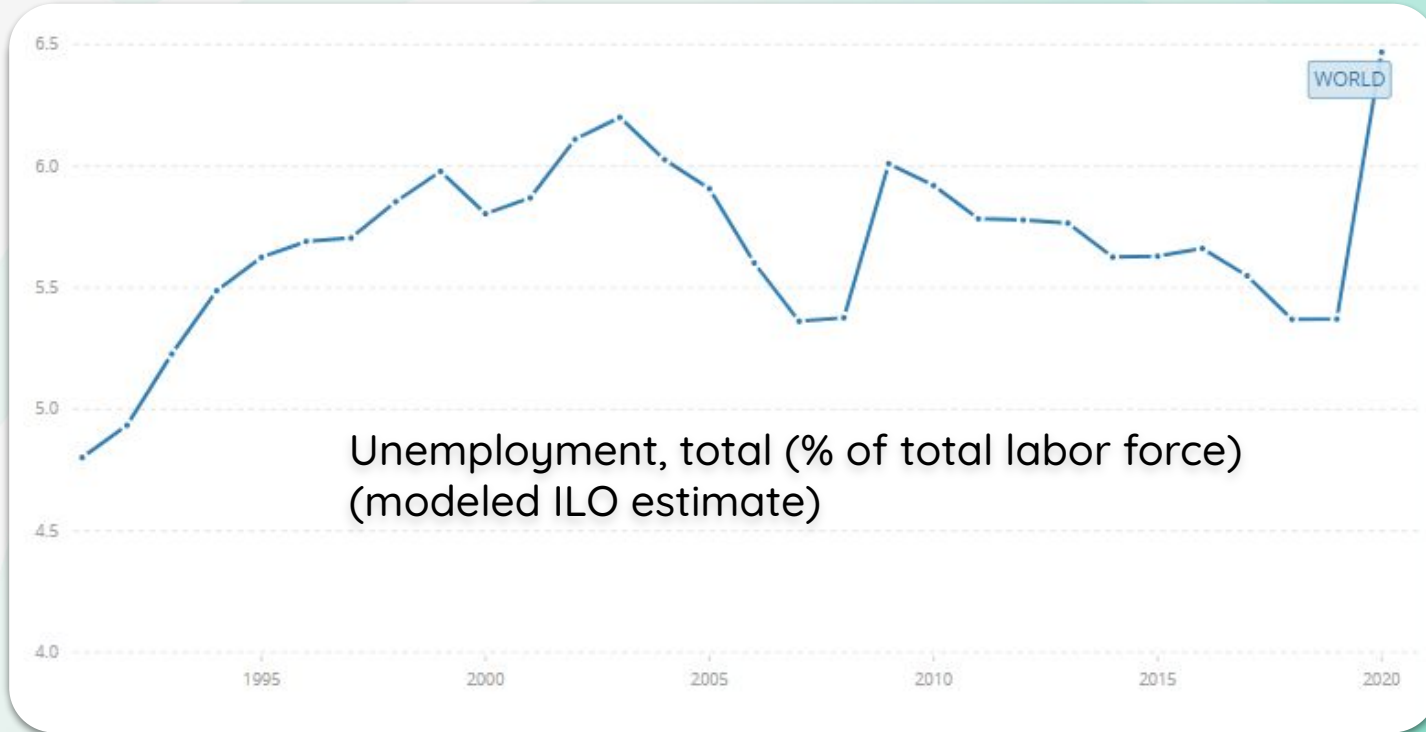

unemployment

100%

of population banked

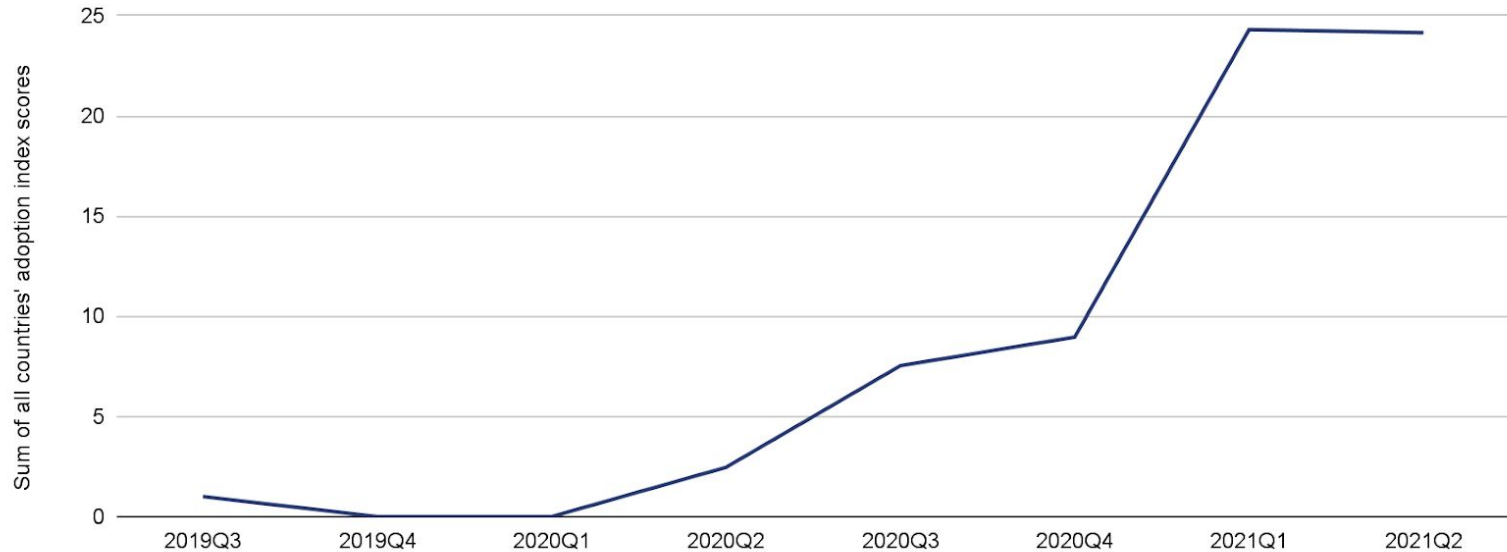

the facts

the facts

Chainalysis Global Crypto Adoption Index: Sum of all countries' index scores by quarter

why is **YOUWHO** needed ?

- > Youwho provides **opportunities** for those in need of income to offer their services to the world.
- > On the flip side people looking for services will be able to **connect directly** to independent service providers, peer to peer.

This enables **anyone** that is **unemployed to earn income**, and at the same time **own a wallet** which they can earn **passive income** from.

This addresses our 2 main mission statements.

how **YOUWHO** works for users

User A requests a Service (or Product) or chooses from what is on offer in the **YOUWHO** platform

#1

User B responds to User A's request

#2

User B provides service to User A

youwho.io

@you_youwho

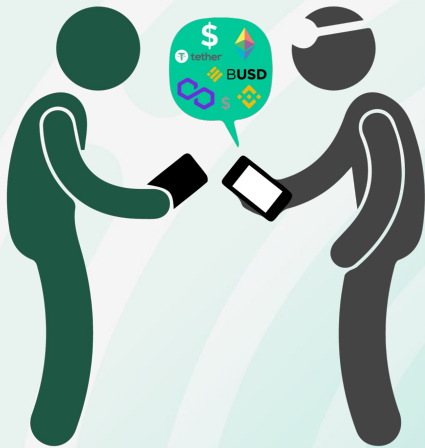

bit.ly/youwhodiscord

how **YOUWHO** works for users

User A pays User B
with crypto through
the **YOUWHO** ecosystem* #3

* The youwho ecosystem deducts a % of the transaction value as a fee which is put into a fee pool that \$YOU token stakers can claim weekly

User A and User B are both
rewarded with **\$YOU** tokens #4

value matrix

Pain Points	Product Value	Message
Waste time searching Google for various providers	Providers available right now can be found in the app via 'push notifications'	Stop wasting time searching google when there are already people looking for you
Price Negotiations - back and forth phone calls to compare prices with different providers	Quotes can be seen from multiple providers after job broadcast.	Get multiple quote from different providers all at once without a single phone call
Scheduling - phone calls back and forth / Phone tag	Users will see providers who are available now, scheduling can be done via app and linked to calendars	Scheduling of Date/Time done via app linked to in app Calendar
Customer doesn't know if the provider does a good job	Customers can see reviews of previous jobs done by service providers	Take the guesswork out of Quality assurance by seeing reviews of previous jobs

marketing strategies

Strategy	Customers (App Users)	Service Providers
Digital Marketing	- Google Ads targeting specific segments - Short clips of people transacting (Tik Tok / Youtube Shorts)	- Facebook Ads targeting specific User profiles - Community competition / events
Partnerships	- Influencers for specific groups	- Industry Association Meetings / Town Halls (Country basis) - Govt. Labour Departments
Distribution	- Google Play Store - Apple Store	- Google Play Store - Apple Store - QR codes from associations
Offline Marketing	- Billboards	- Billboards

how **YOUWHO** works for investors

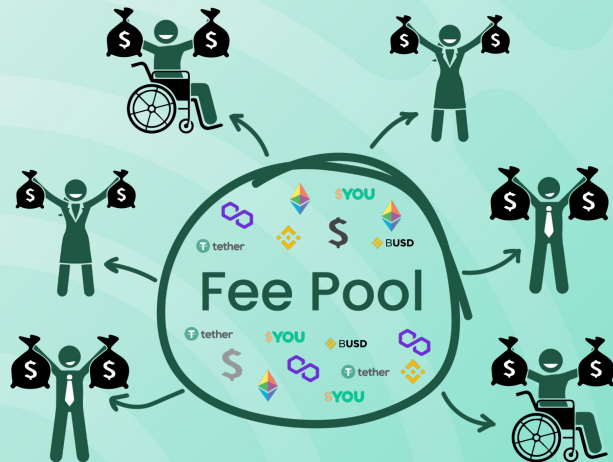

Staking

Earn **\$YOU** Staking rewards
for helping to secure the
YOUWHO ecosystem

Claim Fees

Claim a portion of the fee pool weekly
based on the number of **\$YOU** tokens
staked in the **YOUWHO** ecosystem

revenue forecasting

290 M

(Unemployed with Internet worldwide)*

× 5%

(Service provider to User ratio)

14 Mil

(People provide Service on youwho)

× 10%

(Actual service usage as %)

1.4 Mil

(Daily services provided)

× \$10

(Average transaction value p/service p/day)

= \$14 M

Transaction Value p/day

revenue forecasting

\$14 Mil p/day (transaction value)

x **3%** fee

= **\$420k** p/day (fees claimable by investors from fee pool)

Or

\$150 mil. p/year

\$YOU investors get

1. \$YOU tokens
2. Portion of Fees generated by the Platform (claimable by YOU token stakers ONLY)
3. High Staking Rewards
4. Governance

when will **YOUWHO** be available?

YOUWHO ROADMAP

Concept

- youwho conceptualization and early demo prototyping
- website + lightpaper launch

q3 2021

SuperStaker

- \$YOU token SuperStakler platform launch
- Begin distributing \$YOU tokens to early User, Contributor, Service Provider registrants

q4 2021

\$YOU ICO

- Initiate development of youwho Serve, decentralized services platform
- Initial Coin Offering for \$YOU tokens

q1 2022

Eats

- Initiate development of youwho Eats, decentralized food delivery platform
- Begin bridging \$YOU tokens over to Avalanche, Ethereum & Polygon and launch Liquidity Pools on Dex

q4 2024

Serve Launch

- Soft launch for youwho Serve
- Onboarding International Partnerships
- Marketing for soft launch

q2 2024

q4 2023

q2 2022

Stays + Token Bridge

- Initiate development of youwho Stays, decentralized hotel & airbnb platform
- Hard launch of youwho Serve

PancakeSwap

- Early beta access and testing for youwho Serve
- Issue \$YOU tokens to ICO investors
- List \$YOU token on PancakeSwap

q2 2025

q4 2025

q2 2026

Store

- Initiate development of youwho Store, decentralized merchant marketplace platform
- Early beta access and testing for youwho Stays

Race

- Initiate development of youwho Race, decentralized courier service platform
- Early beta access and testing for youwho Eats

Lifts

- Initiate development of youwho Lifts, decentralized taxi service platform
- Early beta access and testing for youwho Stays and youwho Race
- Soft launch for youwho Store and youwho Eats
