Tenable One

Tenable One Introduction On-Demand Training

Tenable University

T1

Tenable One Introduction Course

The Tenable One Introduction Course consists of a series of short, on-demand videos providing the fundamental building blocks to install, connect and use the Tenable One Exposure Management Platform to identify exposures, prioritize remediations and reduce risk across your modern attack surface, as well as assess and improve the success of your organization's exposure management program. The Tenable One Introduction Course is available for no cost at Tenable University.

Overview

This course is available as an On-Demand Training (ODT). Tenable presents the components of Tenable One and navigation within the workspace. Content includes basic overviews and demonstrations of the features and capabilities of Tenable One: inventory, third-party connectors, aggregated risk-view analytics, and breach and attack path mitigation.

The course features a blend of lectures and demonstrations, all designed to promote active engagement and enhance learning outcomes.

Audience

The Tenable One Introduction Course is suited for professionals interested in learning the basic operational use of Tenable One.

Prerequisites

None.

Key Benefits

➜ **Product-based Demonstrations**

View practical, real-world demos showing Tenable products in realistic scenarios
