### **Skill Development Report**

Program: One-week Skill Development Training Program on "AI and ML Applications in Mechanical Engineering" (Under the aegis of ROBOTIC CLUB and CENTRE FOR PROFICIENCY DEVELOPMENT)

#### Poster of training Program

BRIEF ABOUT THE PROGRAM:-The Skill Development Training Program on "AI and ML Applications in Mechanical Engineering" was organized to enhance participants' knowledge and practical understanding of artificial intelligence (AI) and machine learning (ML) techniques in the field of mechanical engineering. The program aimed to bridge the gap between traditional engineering methodologies and modern AI-driven approaches. This program was jointly organized by "Department of Mechanical Engineering, DSCE," in Association with "WINSUN GLOBAL TECH". Program conveners Dr. B. G. Prasad, Principal, DSCE and Dr. R. Keshavamurthy, Head, Department of Mechanical Engineering, DSCE initiated the event with the purpose of bringing glories to the Pre-Final year students in acquiring practical knowledge on offered elective subjects in the department. Faculty

### **Skill Development Report**

members of the department Dr. Madhusudan M, Dr. Kranthikumar K and Prof.Govindaraju R were taken into confidence to co-ordinate the program.

BRIEF ABOUT THE COMPANY:- As a global engineering services leader, particularly in high-tech sectors such as Aerospace, Automotive, Aero Engines, Turbines, and Heavy Engineering, WGT Mech provides world-class solutions in Design, Analysis, and Additive Manufacturing. Our tailored training programs leverage WGT's vast experience to help industries enhance their Mechanical Design and Engineering Processes, making them more innovative, efficient, and cost-effective while saving valuable time. Our specialized training offers a unique value addition to our clients' engineering and R&D processes, guided by our extensive skills, knowledge, and industry-specific expertise. With a strong track record of delivering high satisfaction, we empower our clients to exceed their own expectations and those of their customers.

### **OBJECTIVES OF THE TRAINING**

- To introduce participants to the fundamentals of AI and ML.
- To explore AI and ML applications in mechanical engineering.
- To provide hands-on experience with AI/ML tools and software.
- To enhance problem-solving skills through AI-driven solutions.
- To encourage interdisciplinary research and development.

#### SCHEDULE AND TOPICS COVERED

The Training was conducted for IV and VI Semester students for below mentioned topics

### (DAY 1) INTRODUCTION TO AI AND ML

Overview of AI and ML concepts Applications of AI and ML in Mechanical Engineering Introduction to AI/ML supporting programming for AI and ML

#### (DAY 2) DATA PRE-PROCESSING AND FEATURE ENGINEERING

An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & NBA (Under Tier-1) ISO 9001-2015 Certified Institution

### **Skill Development Report**

Data collection and pre-processing techniques Feature selection and engineering methods Handson session on data pre-processing using programming libraries 
Real-time Energy Consumption Monitoring and Optimization. Real-time Fault Detection and Diagnosis in Industrial Systems

### (DAY 3) MACHINE LEARNING ALGORITHMS

Introduction to machine learning algorithms (supervised, unsupervised, and reinforcement learning) **Hands-on session** on implementing ML algorithms for mechanical engineering problems. Material Selection in Mechanical Design using ML Models. Automated Design Optimization of Mechanical Components using ML

#### (DAY 4) DEEP LEARNING AND NEURAL NETWORKS

Introduction to deep learning and neural networks Convolutional Neural Networks (CNNs) for image analysis in Mechanical Engineering Recurrent Neural Networks (RNNs) for time-series data analysis. Predictive Maintenance of Industrial Equipment using RNN-based Anomaly Detection. Fault Detection in Mechanical Systems using RNNs with Sensor Data

#### (DAY 5) AI AND ML APPLICATIONS IN MECHANICAL ENGINEERING

Case studies and real-world applications of AI and ML in Mechanical Engineering Group projects and presentations on applying AI and ML to solve specific mechanical engineering problems Future trends and challenges in AI and ML for Mechanical Engineering Predictive Maintenance System: Develop a predictive maintenance system using ML algorithms to predict equipment failure in mechanical systems based on sensor data. Students can work on data collection, pre-processing, algorithm selection, and model evaluation.

An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & NBA (Under Tier-1) ISO 9001-2015 Certified Institution

### **Skill Development Report**

### STUDENTS REGISTRATION FOR THE PROGRAM

By briefing about the program need and objectives in all the classrooms of IV and VI semester Mechanical Engineering students a Google form was floated to the students to enrol themselves in Skill development program below is the registration link and students registrations

Link of the Google Registration Form:-

https://docs.google.com/forms/d/1ICVYx2KQhKnIFaTat\_M4Bber1djcsIA\_9tnwwLWk8sY/preview

### **BRIEF DESCRIPTION OF THE TRAINING PROGRAM DESCRIPTION:**

The Student Development Program (SDP) on Artificial Intelligence (AI) and Machine Learning (ML) for Mechanical Engineering is designed to empower educators with the latest tools and techniques in AI and ML, tailored specifically for the field of Mechanical Engineering. Over five intensive days, participants will delve into the foundational concepts of AI and ML, exploring their applications in various mechanical engineering domains such

Skill Development Report

as design, manufacturing, and maintenance. Through a combination of lectures, hands-on

workshops, and interactive sessions, participants will gain practical insights into

implementing AI and ML algorithms to solve complex engineering problems. The program

will cover topics including data pre-processing, feature engineering, model selection, and

performance evaluation, equipping faculty members with the skills needed to integrate AI

and ML into their teaching curriculum effectively. By the end of the program, participants

will not only have a deeper understanding of AI and ML but will also have developed a

roadmap for incorporating these cutting-edge technologies into their teaching, ultimately

enhancing the quality and relevance of Mechanical Engineering education in the era of

Industry 4.0.

SCREENING TEST CONDUCTED BEORE AND AFTER TRAINING SESSION

A Pre training quiz test was conducted to the students to check about the knowledge of

students about AI and ML. quiz was given about 25 questions and 30 mins of duration for

Both Pre and Post training session. It was observed the only 46 students has attempted all the

questions with in stipulated time for the Pre training Quiz, and 154 Students attempted full

Questions.
