Cloud Migration Advisor

The Cloud Migration Advisor is a tool used by Oracle to analyse your database metadata and provide recommendations about migration methods and targets for one or more databases.

Your source database metadata can be collected in various ways. This document describes how to collect metadata using the spreadsheet sheet.

You can find the spreadsheet and additional information about Cloud Migration Advisor at: www.oracle.com/goto/upgrade

Process flow

Collecting migration details

Please download the spreadsheet file from www.oracle.com/goto/upgrade.

The sheet “Inventory” contains header cells for the columns. Click on the header cell to see a description of what to put into the columns below and where needed also a select statement to execute to collect the requested information.

	A	B	C	D	E	F	G	H	I	J	K	L
1	Database Name	DBID	Database Version	Is Multitenant	CDB Name	Block Size	Total Assigne	Hostname	Instance Name	Platform Name	Maximum	Upgrade

Please share this spreadsheet with your Oracle contact.

Step-by-step instructions

1. Get the spreadsheet from <https://www.oracle.com/goto/upgrade>
2. Add details for each database you want to migrate into a separate row

3. Share the file with your Oracle contact by email, your FTP site or sftp.oracle.com (please see MOS note External Access to Oracle SFTP (Doc ID 2813938.1))
4. The Oracle contact analyses the metadata with the Cloud Migration Advisor, generates recommendations about potential migration targets and methods, and shares them with you.
